## SUMMARY

Self-taught AI Filmmaker focused on controlled, cinematic storytelling (not random generation). I design repeatable pipelines for shot continuity, style consistency, and high-quality delivery, then finish edits and color in DaVinci Resolve. Sound design and original scoring can be delivered via partner studios when required.

## CORE SKILLS

- **AI Directing & Shot Design:** story beats, shot planning, framing, camera intent, transitions
- **Generative Production Workflow:** style frames, controlled generation, QC, upscaling/cleanup, asset organization
- **Post-Production:** editing rhythm, continuity, color grading, delivery for YouTube/social
- **Production Strengths:** fast iteration, structured handoff to audio/music studios, client-ready deliverables

## TOOLS

**AI:** Dzine, Kling, Seedance, Veo3

**Post-production:** DaVinci Resolve (editing, color grading, delivery)

## EXPERIENCE

**Freelance AI Filmmaker / Director** | Egypt | 2024 - Present

- Produced cinematic AI videos end-to-end: concept and shot plan, generation, QC/upscale, edit and grade.
- Built a repeatable pipeline for character/look consistency across sequences and episodes.
- Prepared client-ready exports and organized project files for smooth revisions and handoff.

**Video Editor (DaVinci Resolve)** | Independent | 2024 - Present

- Edited and finished AI footage: pacing, continuity, transitions, and color grading.
- Optimized exports for multiple formats (YouTube, social cutdowns) and maintained quality control.
